Abhishek Kumar

+91 7259008104 abhishekkumarbhagat18@gmail.com linkedin Github Bangalore, Karnataka

Summary

Software Engineering graduate with hands-on experience in Java Full Stack Development and AI-assisted software development. Proficient in Java, Spring Boot, REST APIs, SQL, JavaScript, React.js, Git, and Linux, with strong foundations in OOP, Data Structures, DBMS, Operating Systems, and SDLC. Experienced in building scalable web and backend applications using Claude, Claude Code, and Cursor for AI-assisted coding and development workflows.

Education

CMR Institute of Technology **2021 – 2025**
B.E - Computer Science and Engineering - ***CGPA - 8.01*** *Bangalore, India*

Narayana PU College **2019 – 2021**
PCMC - ***Percentage - 93%*** *Bangalore, India*

Technical Skills

Languages: Java, Python, C
Frameworks: HTML, CSS, JavaScript, React.js, Bootstrap, GenAI.
Backend: Spring, Spring Boot, Java Servlets, JSP, JDBC, Node.js, Express.js
Databases: MySQL, PostgreSQL, MongoDB
AI and Developer Tools: Claude, Claude Code, Cursor, GenAI, Prompt Engineering
Tools: Git, GitHub, Docker, Linux, Maven, Apache Tomcat, VS Code, Eclipse
Core CS: Rest API, SDLC, Data Structures and Algorithms, OOP, DBMS, Operating Systems, MVC Architecture

Projects

Fitness Tracker | *Java Servlets, JSP, JDBC, and MySQL* **March 2026**

- Built a role-based Fitness Management Web Application using Java Servlets, JSP, JDBC, and MySQL, supporting Admin, Trainer, and User modules through MVC architecture.
- Implemented secure authentication, authorization, session management, and 15+ CRUD operations for managing users, workout plans, diet plans, and trainers.
- Designed and integrated a MySQL database with DAO architecture, optimizing data access and ensuring efficient storage and retrieval of fitness-related information.
- Built responsive dashboards and management modules using Bootstrap, Maven, and Apache Tomcat, delivering a scalable and user-friendly web application.

WanderLust | *Node.js, Express.js, MongoDB, EJS, Bootstrap* **NOV 2025**

- Engineered a full-stack property booking platform with Admin, Host, and User modules, enabling property listing, booking, review management, and location-based services.
- Implemented 20+ CRUD operations for property management, user authentication, bookings, reviews, and location-based data handling.
- Integrated Cloudinary for image storage and management, enabling users to upload and manage multiple property images efficiently.
- Designed and optimized a MongoDB database with 5+ interconnected collections, ensuring secure data management and seamless booking workflows.

TRAINING & INTERNSHIP

Pentagon Space **Feb 2026 - Ongoing**
Java Full Stack trainee *Bangalore, Karnataka*

- Completed 120+ hours of hands-on training in Java Full Stack Development, covering Core Java, JDBC, MySQL, React.js, HTML, CSS, JavaScript, and Git.
- Designed and implemented 3+ web applications featuring authentication, database integration, REST-based workflows, and CRUD functionality using Java and MySQL.
- Applied Core Java concepts including OOP, Collections Framework, Exception Handling, and Multithreading to build scalable applications.
- Gained hands-on experience in Automation Testing using Robot Framework (Basic), Pytest (Basic), API Testing using Postman, and Test Case Design for validating application functionality.
- Git/GitHub for version control and wrote 50+ SQL queries for efficient data retrieval and database management

Certificates

- The Complete Bootcamp -Udemy.
- Programming Foundations with JavaScript, HTML and CSS. - Coursera.
